

Welcoming Activities

A very warm welcome to
the **Creative Family**

Welcoming activities for
new members!

We will organize a series of activities
to help everyone better understand
our curriculum and life at school.

Important dates to note

☀ Interview days for new students:

DN - Oct 2024

KG - Nov 2024

☀ Registration day: **DN** - Dec 2023

(date to be confirmed after interview)

KG - Jan 2 to 4, 2025

2024

“Get to know Creative” in October & November.

Creative has always upheld a “child-centered” educational philosophy, with an emphasis on self-exploration and learning autonomy. By appointment, parents will enjoy a tour of school facilities and understand our step-by-step curriculum that helps children thrive in joyful learning.

November Seminar Parents Orientation for new students

How will you, as a new parent, help your child adjust to school life?

How to have a peace of mind and let your child go to school? Through this seminar, parents could learn first hand techniques and how school and family together will help children adjust to changes as they enter school.

2025

Fun at school

(Feb-Mar)

Through parent-child games in small groups, children will participate fully, enjoy play and get ready for school.

Parents will become familiar with our teachers and school.

Teacher-child interactive days

(May-June)

Through teacher-child interactive activities, parents will get a feel of love-filled” education practiced by Creative teachers. Children will also learn more about kindergarten life and experience joyful learning.

New Student Curriculum Seminar in April

The school will provide a concrete presentation of its authentic situation, demonstrating how to achieve both enjoyment and the acquisition of various skills through learning. This seminar aims to provide parents with a comprehensive understanding of the curriculum’s features, class activities, foreign language learning, and unique activities exclusive to the branch school.

I have a date with teacher in August

Through meeting with class teacher, parents will better understand the learning flow and what to watch out for during your child’s adjustment. Our teachers will work with parents on how to guide children at home. Parents and children will also get to know their class teachers better.
